**SAFETY MEASURES FOR FARMERS WHILE USING INSECTICIDES**

 Do not transport along with food stuff	 Safe guard them under lock & key	 Keep away from children	 Wear protective clothes
 Measure & take correct recommended dose	 Stir with wooden stick while mixing in water thoroughly	 Spray insecticide in direction of wind only	 Do not clean nozzle with mouth
 Do not eat, drink or smoke while spraying	 Do not arrange children for spraying	 Keep away food stuff from spraying place	 Wash hands thoroughly before eating & drinking
 Good treatment must be done immediately	 Break the empty containers and bury in the earth	 Take bath and wash the contaminated cloths after spraying	 Purchase in original packs only
 Please read the label/leaflet before usage	 Use cone funnel to prevent spilling	 Do not store water or food in empty containers	 Do not use damaged sprayer or duster
 Wash contaminated clothes & body with plenty of water	 Call a doctor in case of Emergency	 Show the label/leaflet to Doctor for treatment	 Take precautions to prevent environment & water pollution
 Keep Warning Boards in field after spraying.
